

Annual Reports - 2014

Holy Cross School, Kumarghat was established under the banner of Holy Cross Education Foundation in the year 2008. It was a dream comes true for both for the people of Kumarghat and to Holy Cross fathers, as to set up an educational institution in the newly carved district, Unakoti in Tripura. We believe that Education, as a planned endeavour, at personal and institutional level, aims at making children capable of becoming active, responsible, productive and caring members of the society. We give vent to the idea that education is supposed to encourage the students to analyze and evaluate their experience, to doubt, to question, to investigate, in other words to be inquisitive and to think independently.

With this aim of educate heart and mind we began the school with small number of children. Our first batch of children has reached class seven in this academic year. As we were following the children from nursery onward we could see the growth as they become matured in our hands. They are trained both for the academic Excellency and moral behavior as the motto of the school is to educate both the mind and heart of the students.

Along with the academic development we also give emphasis on the extra-curricular activities. We conduct sports day in order to bring out the sportive spirit of the children. We conduct cultural day to call out the hidden talents of the children. Beside this we have regular extra-curricular activities and different competitions to bring out the best from the students.

We do take utmost care to make education more students friendly and students centered. We plan the lesson to make students active in the class rooms and teachers become only facilitators to bringing out the abilities of the children. This year we began a three years long training programme for the teachers by the Global School Room from Ireland. Thus we try to make learning a comprehensive task in a friendly atmosphere where fear is done away with and confidence is enhanced. I am sure we are not perfect we have many things to improve upon we are just growing. The school is in the process of seeking CBSE affiliation as per the request of our dear parents, lots of positive signs has come up on this process. The Inspection Committee is constituted and is hope to visit our school the first week of December. I wish all will go well for us.

I greatly acknowledge all our teachers who toil hard for the growth of the institutions. I thank all the parents for their support and encouragement. I thank all the officers in different offices where I have approached for any sort of need they have never discouraged me. The co-missionary team-Fatima sisters and M.C sisters. Finally I thank for all my students you are my energy and my hope. Your cute smiles and wishes encourage me to do a lot work for you. I pray May God bless you all. As we march towards higher horizons let us take effort to march together as one family of Holy Cross.

Thank you and God Bless you all .
