MY SCHOOL VOICE

*** Holy Cross School, Kumarghat, Quarterly School Newsletter. September 2022 ***

Greetings to all!

Editor-in-Chief

Lalnunsangi Lushai

The journey of Holy Cross School, Pabiacherra, Kumarghat began in the year 2008. It is the effort and hard work of Holy Cross Fathers together with the Fatima Sisters and the Staff. The school has grown in leaps and bounds over the last few years and the crowning glory of the school was when the first batch achieved outstanding results in the CBSE Board Examination of 2018. This institution has been nurturing young minds of the place for the past 13 years with the belief that 'The heart of education is the education of heart'.

Aristotle once said that, "Educating the mind without educating the heart is no education at all." Even as we impart education to match the advancement in technology and globalization, we march our children ahead with Blessed Moreau's ethos of moral values and principles. We endeavor constantly to instill these qualities in our children. We are very happy to help them grow and develop into sensitive and responsible citizens of our great nation India in the near future.

The main aim of this *e-Newsletter* is to bring up an exhilarating flashback of the inception of the school, its history and the events and achievements. It is also meant for encouraging our students and to bring out their talents on the digital platform that consists of poetry, paintings, essays and some informative and inspirational articles.

We are pleased to present the first *e-Newsletter* of the school with the theme "My School". I am overwhelmed to be a part of this school's *e-Newsletter*. We are indebted to Fr. Sahaya Lourdu Raj C.S.C, the Principal of the school for his wonderful idea to make it actualized and being instrumental in its publication. I am thankful to the students, staffs and all those who have extended their cooperation to make this publication a successful one.

I hope you will enjoy reading this first edition of the *e-Newsletter* of our school and would give your valuable suggestions for the next issue.

Blessed Basil Anthony Marie Moreau

Principal's Message

I really feel privileged to serve as the Principal of Holy Cross School, Pabiacherra, Kumarghat. I Thank God for all graces and learning He has bestowed on me in doing this ministry of education. I am grateful to the support and guidance of all the members of Holy Cross Education Foundation. I would like to bold, underline and highlight the support of the School Manager, Headmistress, Supervisor, P.R.O., Teaching and Supporting Staffs, SMC and Parents who encourage me and work with me for the bright future of the students and the growth of the school. The D.E.O., and other education offices around us are a great guide and support to us. Our students are very talented, energetic in their learning, creative, disciplined, regular, hardworking and humble to correct their mistakes and grow.

I am greatly enthused by the commitment shown by the staff at different levels. Not only they give their best in teaching the students with their syllabus but also accompany them at all possible levels. 'Teachers are a Second Parent' is not a mere sentence here, as I do witness it in the life of our Teachers and Students. They are growing together.

Surely, a school plays a crucial role in shaping a child's future. Not only in educating the students also in moulding their character, morals, and value system which is part of our providing Holy Cross Way of Education, the way of our Founder Blessed Basil Moreau.

Golden words of Malala Yousafzai is "They cannot stop me. I will get my education, if it is in the home, school, or anyplace." Whatever activities that we do, with the support of the Staff and Parents the student is ready to learn. This school newsletter, 'My School Voice' is an apt expression of it. As this quarterly issue gets ignited to launch, I congratulate the Chief Editor Smt. Lalnunsangi Lushai and her team for their hard work and good efforts. Thanks to all those who contribute through their writings. A special word of thanks to all the students who had spoken from their heart in their few lines. Best Wishes to all!

Headmistress's Message

As the headmistress of Holy Cross School, Pabiacherra, Kumarghat, I extend all of you my cordial greetings.

Enlightenment can be achieved only by educating both the mind as well as the heart. Education of the mind sharpens our academic performances while educating the heart helps us in holistic development. Education which includes on both the dimensions (heart & mind) makes an individual not only intellectually sound but also socially productive.

Technology is changing at a rapid pace and that means we as Educators have a great task to adapt to the rapid changes in the society and respond flexibly to the extraordinary challenges.

As dedicated and highly motivated team of Holy Cross, we focus on to keep up with advances in technology, stay updated about new informations, and make the learning process active. We also promote a high level of learners', who are capable of doing new things, learners who have a thirst for discovery and knowledge. We aspire to provide a creative environment for the children to grow, learn and expose oneself to several aspect of life.

We believe that in establishing healthy Parent-Teacher relationship, we will continue to make learning joyful and help the students to flourish long-term success.

I take this opportunity to congratulate the team of MY SCHOOL VOICE for bringing out the newsletter with updates about news, events and achievements of the school and to give a good platform for the students to present their creative talents.

I wish each one all the very best!

Sr. Bernadette D'Costa F.S
Headmistress

From Manager's Desk

Fr. Lancy D'Souza CSC

Dear Students, Parents, Guardians, Staff, Fr. Lourdu the Principal and Well Wishers of Holy Cross School – Kumarghat.

It is indeed an immense pleasure for me to greet you all with warm and prayerful wishes!

In keeping with Holy Cross charism of education, The Mission of our school is to provide holistic and quality educational opportunities to the young entrusted to our care. It has been a great joy for me to know and to experience personally this ongoing development of the students through our institute. The school management meticulously instills in all the students the cherished values for life and to form and build the future citizens of the country. Thus, our school provides platforms where the students are educated, not only in academic growth but equally encompassing their physical, mental, social, emotional and spiritual growth.

The world around us is changing at an accelerated rate and we as educators are aware that there are many challenges that lie ahead of us as we navigate around this world of changing demands and COVID-19 pandemic has been the biggest challenge today! COVID 19 has taught us lot of new things and made us realize the potential of our teachers who took on the challenge of teaching online, with full zest and courage. Due to lockdowns, the mode of teaching changed from that of classroom to electronic gadgets. The cooperation of students and parents are also to be noted as they received their education in their respective homes,

something that was unimaginable before. However after the lockdown, as our students returned back to school, the management had to gear up with challenges that lay ahead of us, as we were not physically present with our children in their holistic formation. The need of the hour is to collaborate, innovate and keep growing in order to keep pace with the changes that are inevitable. Education and training today are to be aligned and geared to meet these remarkable challenges of the development of the total human growth and this is what our school aims at. Therefore, let us take new strides and let us never be tired of doing our part in making this a little brighter and better place to live in.

I had the joy of meeting our teachers at various intervals, during one such meeting recently, I had enquired teachers about the performance of our students. The teachers were very positive of the growth and holistic formation that our students are being imparted with. Similarly, students and parents are also extremely satisfied with their teachers and the management. As a Manager, it's a great joy for me to see happiness amidst our students and the teachers because the purpose of our lives is to be happy. As Lyman Frank Baum (American Author) says, *"In all this world there is nothing so beautiful as a happy Child."*

As our School takes this new initiative of publishing E-Magazine, I congratulate the Principal Rev. Fr. Sahaya Lourdu Raj, C.S.C. and the entire management for meticulously planning to publish this E-magazine and I also take this opportunity to thank both the teachers and the students for their contribution.

Finally, I implore God's blessings upon every one - Management, our teaching staff, administrative staff and supportive staff who are committed to provide the right and applicable guidance to all our students. Our school remains indebted to all the parents and guardians and well-wishers for their cooperation and collaboration.

Greetings!

My School

School is said to be a temple of knowledge. The very first place where I am introduced to the world and myself. My school life is all about the memories not only of the friends, sports, extracurricular activities but the way it has helped me find my interests. I owe a lot to my school. It has made me what I am today.

My school life has been full of different experiences over the years. It gave various opportunities to develop not only academic abilities but also extracurricular activities. It supported me in my sports as well as exposed me to numerous things that make school life the best. Besides that, school helps in personality building in all the facets of the student lives.

We have good teachers and a pleasant environment that makes my school the best. The teachers are very good and cooperative. Our teachers correct us for our whole human development. My principal is also very simple and humble. We love our teachers very much and respect them from the bottom of our hearts.

"If you are not willing to learn,
no one can help you.
If you are determined to learn,
no one can stop you."

An Article on Education

Education is very important in our life. We are incomplete without education. Education disciplines us. Better education is very important for everyone to move ahead and achieve success in our life. Education is the only thing that does not let us bow down, none can erase it or take it.

The importance of education starts from our childhood which begins at home. Education is a lifelong process which will end with our death. Society without education cannot give a bright future to the world. It gives us the ability to change our future where every person can enjoy his/her life without any tension. For this, we must have the ability to read and write. We know that the information can be grabbed by reading.

Education is an important tool that enables a person to know his rights and duties towards his family, society as well as his country. Education develops the vision of a person to see the world and also the capacity to fight against the wrong things like injustice, corruption, violence etc. It also improves the confidence of a person in his life which is an important key to success.

HOLY CROSS SCHOOL, KUMARGHAT

A place known for education,
The second home to us.
A place where we learn dedication;
It is the school we love.

This school moulds us, with love,
It creates many best students,
If anything with them is wrong,
The best teachers have the skill to help.

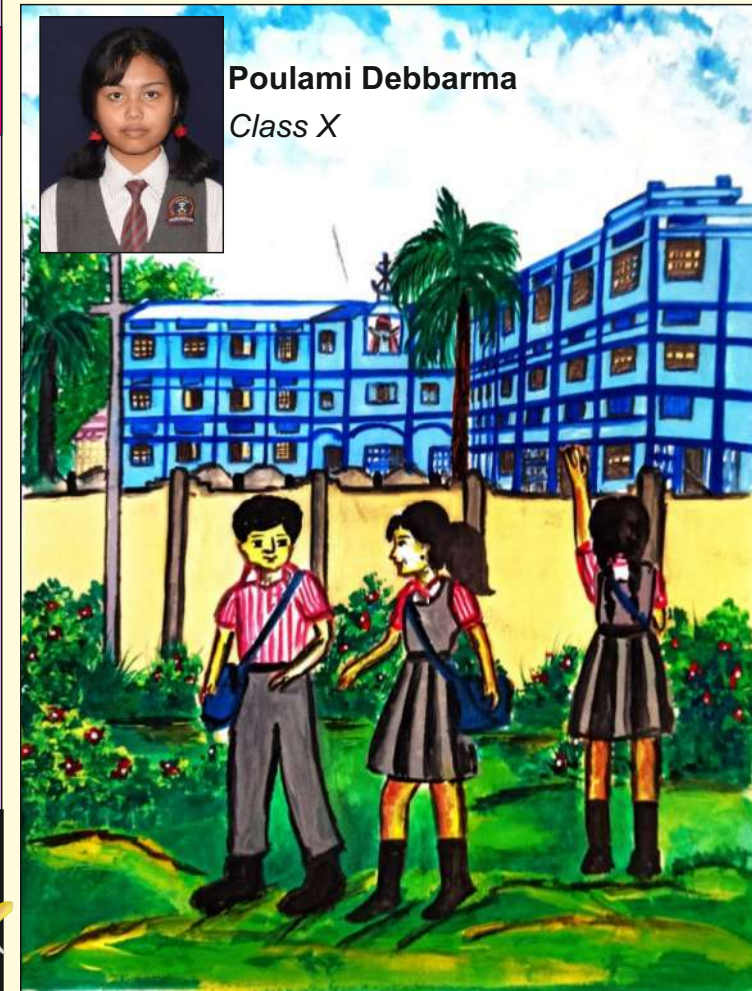

They are the teachers whom we love.
This is the school we will always remember,
This is the shell inside which we are built to glitter,
Whether the sun sets or rises,
This school always educates our heart and mind.

The memories of my school days are very sweet. I often remember the sweet memories of my school days. In our class there were thirty seven students. We all loved one another. Our class lessons were very interesting and all our teachers were well-experienced. They took special care of the weak students. We never put off our homework. There was a good academic atmosphere in our school. We attended our classes regularly. As a result, we were never afraid of examination. There were good facilities for games and sports in our school. The teachers were our guide, guardians and friends. The happy memories of my school days still fill my heart with joy. My school days were the best days of my life. I still remember my first day of my school. I can still feel how warmly my school welcomed me. The affection I received from my classmates that would never be forgotten. That's why I always consider my primary school memories as the treasure of my life. My school life taught me how to be disciplined, responsible, hardworking and realistic. That's how school days are the most memorable parts of my life.

Article on Education

The significance and responsibility or role of education is very high. Education is very much important in our life. We should never underestimate the importance of education in life, be it formal or informal. Formal education is the education we get from school, colleges and Informal one is from parents, friends etc.

Education has become a part of our life, as education now a days is needed everywhere. It is literally a part of our life. To become successful, we need to be educated first in this generation. Without education, people will dislike us, etc. Also, education is significant for the individual, communal and development of the country or nation.

Educated people make the country more developed. So, education is also important to make the country more developed. Importance of education can't be felt unless we study about it. Now a days the standard of someone is also judged by his or her qualification which I think is right because education is very important and everyone should feel the importance of education. But if we compare today's educational system with the earlier one that are in previous times the purpose of education was to instil high values and morality in an individual's consciousness. Educated citizens build up high-quality political philosophy.

School of Gods

The first day I walked inside the divine building I held my breath and my hands were trembling. Crisp white shirt, neatly made hair, greeting me as they walked through the corridor. Well I was a nervous wreck looking at the floor. When I finally looked up the realization hit. This was the school of gods everyone talked about.

The individuals with knowledge and dreams meet here
The older ones the teachers were a lot wiser. They knew how to reach the stars and had no fears.
They were so smart and witty. Indeed they were the real deity. They say I need to read and learn as to fight all the odds.
I was yet to realize, this was the beginning of my journey in the school of gods.

GOOD MEMORIES ABOUT MY SCHOOL

I have too many words to say about my Holy Cross School. Some of those words are special and precious. I still remember the day I went to the school for the first time, there was one girl who asked whether I could speak her language, for which I said "No". Later we became very good friends. Then we tried to get a friend who can speak our language but could not find but later one more girl became our friend. We decided to be good friends forever.

Education is a valuable tool for gaining knowledge and wisdom. Education is not only bookish knowledge but it must encompass all the aspects of life. Reading and writing are the first steps to education that give a person opportunity for growth and advancement. People who are educated will be dignified and self-assured. Education helps the person to be expressive and communicative.

Because of education not only an individual but the entire community. The most important aspect of education is that it goes from one individual to another. The educated people can inspire everyone with whom he or she comes in contact. Education helps in advancing in all areas. Education is a source of hope for a better life and free existence.

Holy Cross School, Kumarghat is one of the most renowned schools in Kumarghat Sub division. I am glad to be a student of this school. It has all the facilities for sports, study and other activities. The atmosphere at my school is delightful. We have a large playground where all the students play different games like Badminton, football, volleyball etc. My school has well-equipped Science Labs of Chemistry, Physics and Biology. It has a big computer lab with trained technical staff that helps us to learn everything about computer.

All the staff at my school are well educated and experienced. Our teachers not only teach us but also prepare us for various competitions. They always teach us discipline and punctuality. They love us, and they teach us in a very simple and easy way. Whenever we fail to understand anything, they try to make us understand it again. They give equal attention to all the students, and that is why it has an excellent academic record. Besides normal academic activities, it gives due importance to extra-curricular activities. The school regularly organises different types of Games and Sports events where every student can take part. The schedule of tentative sports and cultural programmes chalked out at the beginning of every year and incorporated in an academic calendar. The school authority adheres to the same.

The biggest reason behind the success and fame of the school is our Principal. He has an attractive personality, and his knowledge is Commendable. He loves all the students and always spare some time from his busy schedule to monitor the progress of all the students. I admire his personality and principles. He always encourages us to take part in various extra-curricular activities, and it is the result of his support & dedication that the students always perform well in all the competitions. We all are fortunate to have him as our Principal.

I love my school and my school life. Every day I learn new things here and enjoy with my friends. All my teachers love me and always support me. I have learned discipline and punctuality from my teachers, and it will help me a lot in my future.

GOOD MEMORIES ABOUT MY SCHOOL

I thank my class teacher for giving me this wonderful opportunity. I am here to talk about my school. School life is wonderful. I am sure that all of you agree with me. Our school gives the best education, good values, and confidence in both curricular and extracurricular. My school is one of the best schools in my state. My school campus is very clean and beautiful. I feel that the school is my second home. Our teachers are very caring and loving. They teach us to respect our elders and teach us moral values. I like my classmates, they are very friendly and loving. I have so many friends in my school. In our school we celebrate many occasions like Independence Day, teacher's day, Gandhi jayanti, Christmas, children's day etc. I learn new things every day. I love my school very much and I am proud of it.

Education is an important part of life for every individual. School leads us to success. School plays a significant role in shaping the future of a child. My school is also one of the greatest and reputed schools of our state. It is near to my home. It has a very big building having several rooms. All the rooms are well equipped. We have a very good library, science lab, staff rooms and a very big playground. Our teachers are well qualified, experienced and hardworking. They give individual attention to all the students. The students are taught to be polite. The principal gives importance to both curricular and extracurricular. He always motivates us students to participate in all the activities. We are given opportunities in all the activities like games, debates, singing, drawing, and playing musical instruments. I love my school very much. I love and respect my teachers. I am always thankful to my school for making it better and better in my life.

The name of my school is Holy Cross School, Kumarghat. It is a three storied building. It has many rooms and a big hall. The class rooms are big and have wide windows for good ventilation. There are about 1050 students in our school and the number of teachers is 48. Our school teaches us to be well disciplined. Extra-curricular activities like playing, dancing, singing, drama etc. are also provided by the school apart from the curriculum. There is a large playground in front of the school building. The academic record of the school is also very good. The school has a good system of sanitation, special arrangements are retained for drinking water. I am proud of my school. I am blessed to study at such a reputed school. I hope I will give the best to my country and my school.

MY SCHOOL

I have a big and beautiful school,
All the teachers want to work there.
The teachers teach us behaviours.
With lots of loving tools.
They teach us many lessons,
And give us knowledge tool
I wouldn't miss a single day
To go to school anyway.
I have a lot of fun with them..
I call them friends, sir and madam.
I always love to go to school
It's the best place and
it's really cool.

GOOD MEMORIES ABOUT MY SCHOOL

Omega Darlong
Class: IV

Firstly, I feel honored and thankful to all my teachers for giving me the opportunity to write an article for Holy Cross School Kumarghat.

The name of my school is Holy Cross School Kumarghat Unakoti Tripura. This school being my first ever school I have seen many merits, but I will mention only the best part about it.

With the changing season our school time keeps changing in a good way i.e, during summer the school starts early and in winter it gets delayed due to the cold weather which is very important for us children which I feel is also essential for us.

There are two main gates in our school, first and second gate through which we can go during school hours and after school hours and everyone maintain discipline while going. Only those children with parents can go through the second gate for security which is great. Discipline and respect is given importance in the school/class hence, it is practiced as well. In each class there are class captains elected and I am one of them and I try to do my duty as per my capabilities. There are CCTV cameras in our school, meaning the whole school is under surveillance with is good in many ways. For any notice or information there are groups created in WhatsApp for each class through which all the information is passed on and our parents get notified with is very helpful.

I feel grateful that each year our school gets excellent result on CBSE board exam, and I hope that it keeps getting better and this all depends on the students that we make our teachers proud, and I also hope our teachers keep guiding us. I hope and pray that in the upcoming years the school can extend to higher secondary to provide us better opportunity for the people around.

GOOD MEMORIES ABOUT MY TEACHER

Class: I

The teachers in our school are smart, Knowledgeable and also speak well. They treat us the students dearly and like their friends which make the students comfortable and free with the teachers as per required.

Our teachers are not biased towards or against any students and teaches us fairly without any partiality and guide us throughout our class and help us with our notes.

Us being young and forgetful they teach us patiently and inform our parents regarding our homework or any project work to our guardians. As the teachers love us dearly, we the students also love our teachers dearly.

Valued Feedback of a Parent.

Mr. Subrata Sharma (Dr.)
Principal In- Charge
Ambedkar College

We know that a child's development is shaped by his/her brain development, environment and experience with friends, family and teachers. As Swami Vivekananda Stated - "We want the education by which character is formed, strength of mind is increased, the intellect is expanded and by which one can stand on one's own feet". Holy Cross School, Kumarghat is definitely a wonderful place for shaping a child for his/her future. I feel so gratified when I see my daughter act and react so intelligently in situations. The school encourages students to form a healthier and friendly environment. Many activities and facilities have been improved throughout the years to create it the best possible place for our child's development. Students have a stress free environment here. My daughter has developed her confidence and her concepts are clear in almost all matters. I can very well see the mental growth of my child. Through different activities done in School, I have observed an overall personality development in my daughter.

The best thing at Holy Cross School is Parent-Teacher Meeting. It is an open platform where every parent has the liberty to express his / her opinion and the authority also pay due importance on it. Even during pandemic, the School authority regularly convened PTM Virtually to take the opinion of parents for taking decision on important issues during pandemic. Through online classes the dedicated teachers have devoted their all efforts to prepare their students for exams and they were also concern about the mental state of their students. During pandemic they were in close contact with the students so that they do not get bored and stressed.

Thank you all the staff of Holy Cross School, Kumarghat for your kind efforts to improve my daughter and giving such a brilliant environment for growth.

We are proud to be a part of Holy Cross Family.

Regards!

PEACE CLUB SEMINAR ON 'KNOWLEDGE ON THE USE OF DIFFERENT KIND OF TOYS

The District Project Consultant Mrs. Moumita Reang with an aim to help participants gain knowledge on the use of different types of toys, conducted the Peace Club Monthly Meeting in Holy Cross School, Kumarghat on 02-07-2022 under the title “Anti-war Toys”. The consultant began with a brainstorming, asking the students on the use of toys during their childhood. She said that Playing toys is critical for young children. It’s a way for them to process the world around them and to learn. Through play, children build a foundation for later academic and social success. And we should make sure children have plenty of opportunities to engage in self-directed, meaningful play.

She too explained as of which type of toys are good that we can introduce to children. She spoke to the students that how children’s entertainment and using of war toys are affecting the play and behaviour of children. Introducing toys to children such as guns, swords, knives, bows and arrows, war planes etc. defined as ‘aggressive’ and can promote the expressions of anger. Also, they experience conflict in a variety of situations across their home and social lives. She also said that children are seen manipulated into replacing the violent content they see on television, videos, violent cartoons and tend to imitate these in real life. And it is very likely that many of us at some point of time will have to shop for children’s present, for example for a birthday or holiday. As we walk down the toy aisle, we will soon notice some toys tell a story of conflict. So, as adults who value peace and co-operation, we must learn to pass these values on to the younger generations. And whenever we think of buying war toys, we may also ask ourselves what role ‘war toys’ play in children’s development. She concluded by saying that children should choose games that develop team spirit and intelligence, rather than purchasing any war toys that promotes aggression, anger and hatred.

VISIT TO AN OLD AGE AND LEPROSY HOME

On 9th August 2022, the Peace Club students of Holy Cross School Kumarghat, paid a visit to Mother Teresa's home for the destitute: leprosy, differently abled and elderly people at Shantipally, Kumarghat. To share their love and joy, the students entertained the inmates with their mesmerizing dances and songs. The inmates were really touched by the program of the students and two of them too on their own effort sang songs praising God. The Principal of the school Fr. Sahaya Lourdu Raj handed over gifts as a token of love to the Superior Sr. Marian MC. A group photo was taken with the inmates and students had few snacks and cold drinks to quench their thirst in the humid weather.

Birthday Celebration of our dear Sr. Lahunsuklang. F.S

“Birthdays are really symbols of how a year has gone by, and how little we've grown”. A birthday celebration is an enjoyable life event for everyone. It is celebrated with our family, friends and loved ones. The day leaves memories for the future. It is also a reminder that there is a hope for future years

On 10th of September we the teaching staff and the non – teaching staff along with our principal and Headmistress of Holy Cross Family, celebrated the birthday of our dear Sr. Lahunsuklang, the supervisor of Holy cross school kumarghat. Indeed, it was a great privilege for us to celebrate her birthday with great joy and happiness. We as a family wished our dear sister by cutting a cake which is a symbol of love and affection towards each one of us. Fr. Lourdu, the principal of our school conveyed a birthday message to her on behalf of all the staff members. It was a pleasant surprise birthday wishes to our dear Sr. Lahunsuklang.

Holy Cross Feast Day Celebration

“Ave Crux, Spes Unica” – “Hail the Cross, Our Only Hope” is the motto of the Congregation of Holy Cross.

The Feast of Our Lady of Sorrows is celebrated on September 15, which is the most important feast day for the congregation of Holy Cross Fathers, Brothers, and Sisters throughout the world. Blessed Basil Moreau placed the entire Holy Cross family under the patronage of “Our Lady of Sorrows”. It was our privilege to celebrate Holy Cross Feast on 14th September 2022 in our school. Students and teachers gathered in front of the school to join the celebration. The program began by lighting of the lamp and cutting a ribbon by Fr. Abraham CSC, the Parish Priest of Kathalcherra who was the chief guest of the day. To commemorate the special occasion, Fr. Abraham unveiled the portrait of Blessed Basil Anthony Mary Moreau and the image of Jesus Christ. We also had a beautiful Festal Song to wish our fathers by students of V and VI. Fr. Abraham gave a short message about the congregation of Holy Cross and its missions in South and Northeast India especially in the field of Education. A short session was organized for the students in which Holy Cross and its Vision, Mission and the Holy Cross way of Education was addressed to them. After which Class IV to VII students took part in Quiz Competition which was conducted by Sir Apu Kumar Roy and his team based on the session’s input. Sweets and snacks were distributed to the students and staff and thus we had a meaningful Feast Day Celebration of the Holy Cross at the school level.

Inauguration of Science Laboratory

Greetings to all !

It's my pleasure to note down that our School's Science Laboratory was renovated and on 15th August, 2022 was inaugurated by Fr. Lancy D'Souza CSC in the presence of Fr. Sahaya Lourdu Raj CSC, the Principal of the School, Sr Bernadette FS, the Headmistress, Fatima Sisters, and all the Staffs and senior students. To grace that auspicious occasion, a small exhibition was executed in the Lab where a total number of 18 students from Classes VI, VII, VIII and IX had actively participated. They all were well trained through multiple seminars and practical activities by Sir. Apu.

I, as a teacher and Incharge, hope and believe that through our School Science Laboratory, students will be definitely benefit and will cultivate a reverential attitude towards Science and Technology.

Central Board of Secondary Education (CBSE) Works

Central Board of Secondary Education is one of the most preferred Boards in India. CBSE maintains uniformity in the education system all over the country. More and more schools are getting their affiliation from CBSE every year. CBSE's education structure allows our children to study rigorously and develop skills at the same time. CBSE not only imparts quality knowledge to the students but also ensures overall physical and mental growth. We are very grateful that our school is affiliated with CBSE Board.

Registration of students in Class IX is a very significant process which helps CBSE in advance planning for holding the Class X examinations of these students in the forthcoming year. Another important aspect of registration is to communicate the students' personal particulars to the parents so that in case, there is any mistake in the personal details of the student concerned, the same may be corrected prior to the conduct of Class X examination. This helps in eliminating requests in future for making the corrections.

Submission of List of Candidates (LOC) for Class X is the most important activities towards preparation for the Board's Examinations every year. Submission of LOC is done through e-Pariksha link given in CBSE website <https://cbse.gov.in>.

Before proceeding for Registration/LOC of students, existing schools shall have to update the data on OASIS & HPE Portal.

As submission of the LOC as per schedule is very important, our school plans timely submission of data of the candidates. Every year we have at least three times, cross checking by the students and parents to ensure that the filled-in data is correct and zero error. Then only the data's of the students are sent to the Board.

We are also grateful to our beloved parents for their belief, trust and support as being the mentor to their children and appreciate them for their full co-operation which helped in completing the Registration & List of Candidates and other CBSE works smoothly and on time

Thanks.
