Dear Readers,

It is my proud privilege to greet you all with warm prayerful best wishes and choicest showers of blessings from the Almighty God. It is a matter of pride to pen down the message for the 3rd issue of our school e-newsletter with the theme "Gratitude".

Gratitude is a very important quality that improves the quality of life, making the existence more sensible. It establishes social harmony and includes an environment where everyone appreciates each other and provides support. Gratitude improves the quality of our personal lives and strengthens our bonds with family and friends.

As we come to the end of our Academic Session 2022-2023, the different flowers blooming in the garden of Holy Cross School Kumarghat, reach out their voices singing the songs of gratefulness for being part of this beautiful garden and shining brightly individually with heads high above. All these lovely flowers and the gardeners pour out their hearts in gratitude for the care, love, nurture to the owner of the garden (the authorities) and the gardeners (teachers).

I take the opportunity to thank our Principal, Fr, Sahaya Lourdu Raj CSC for giving such a beautiful platform where our students could express their experiences and gratefulness for everything that they have learnt and cherished during this academic year 2023.

Last but not the least, I pray God's abundant blessings upon all those who will come in contact with this newsletter for spending your valuable time to have a glimpse of our articles and wish you all an enjoyable reading time.

Also, to all the students, teachers and well-wishers for supporting me with your beautiful expressions, love and good efforts.

All the best wishes to you all and hope to meet you all in the next issue.

The family of Holy Cross expresses our deepest condolences to all the Fatima Sisters for the great loss of three Sisters: Sister Melagrine Dantas FS (51), Sister Pramila Turkey FS (28), Sister Rossie Nongrum FS (21) in a tragic road accident at Umbang, Sumer, in Ri Bhoi district on February 26, 2023, along with a Parish Priest of Barama Parish Father Mathew Das (53), a teacher from Barama St John's HS School and the driver of the vehicle died on the spot.

During this difficult time, may our Prayers be a source of comfort and strength to all the Fatima Sisters and the family members of the deceased.

"Gratitude is the fairest blossom which springs from the soul."
- Henry Ward Beecher

Dear Rev. Fr. Principal, Headmistress, Staff, Students, Parents/Guardians, Well Wishers of Holy Cross School, Kumarghat.

At the very outset, it is my honour and privilege to greet you with prayerful wishes!

The best and beautiful things in the world cannot be seen or even touched. They must be felt by heart. Gratitude is one such prayer. As we approach the end of this academic year 2022 – 2023, my heart is filled with gratitude as I look at the strides the school has taken and the milestones achieved thereof. My heart therefore is filled with pride and elation of a gardener whose seeds have sprouted and whose beaming petals have been unveiled.

As our school tries to impart holistic education to those entrusted to our care, we instill in our students the cherished values for life and to form and build the future citizens of the country. One such quality which we mainly instill in our students is 'gratitude' – gratitude towards school, gratitude towards teachers and staff, gratitude towards friends, gratitude towards parents and gratitude towards our society. On numerous occasions, I have personally witnessed and experienced the gratefulness of our students and I am very glad that our students have inculcated this vital quality as they shape their lives for a better future. I pray that our students may continue to grow in being grateful to teachers and to the school, which will indeed help them to have a positive approach of being grateful to all who have helped them come up in life.

Blessed Basil Moreau the Founder of the Congregation of Holy Cross being a teacher himself said "A call to be a teacher is from God and a good teacher is preoccupied with the care and the progress of students, with their schoolwork, and with the small and bothersome difficulties that inevitably arise in dealing with young people. Teachers will find it difficult to care seriously for their own spiritual needs and their own interests". Teachers sacrifice a lot for a student's future. Therefore, it is the need of the hour to educate our children to know the importance of a teacher in nation building by acknowledging his or her dedication, role and sacrifice to carve the life of his or her student for the latter's benefit and society's benefit.

The school is highly indebted to Rev. Fr. Sahaya Lourdu Raj, C.S.C., our Principal, Sisters, the teaching staff, administrative staff and supportive staff, each of whom works very hard to ensure that the abilities of the children in our care are nurtured and carefully developed. I fondly thank them for their dedication, loyalty and committed service which has transformed this institution into an outstanding and significant temple of learning today. A big thank you for everything!

Dear parents, I wish to thank you for your trust and unwavering support throughout this academic year. We remain committed to the sound education of your children. You have indeed been very supportive and instrumental to the success they've achieved. I also urge and exhort you dear parents to help your children at home to be grateful even for small things they have been blessed with, for gratitude is associated with social wellbeing, emotional wellbeing, and psychological well being.

Finally, I implore God's blessings upon everyone and pray that the Almighty God continues to guide the school management, students, parents, staff and all those associated with this institution.

By being grateful, let us look back with pride and move forward with enthusiasm.

What I am Grateful for in this academic year of 2022-23?

AMAR DEBBARMA
CLASS V

My gratitude towards my school has assisted me in exploring a multitude of skills and activities. As a result, I am thankful for school since it has helped me discover my passions, pushed me to seek new experiences, and altered my personality and it also gave me lessons in life that I would have learned at home. But, it aided in my development as a responsible global citizen. For example, I can become or achieve anything if I work extremely hard and put all of the efforts into it and the teachers in my school also helped me to write and read, for example i learnt about different languages, festival, tribals, dresses etc. I am also grateful to my friends for being there for me in my happy and challenging times. The ones that stood by my side and supported me in every decision I made. I am grateful for being able to cry with them over an exam we didn't do well on. I am thankful to them for making my school experience memorable and creating memories that will last a life time.

Good wishes to all! The term `teach` comes from the Middle English word “Techen” which means `To demonstrate or instruct`. A teacher is person that has played an important role in everyone's life. He/she shows the students the right path and educates them in the areas of wisdom, virtues, competence and so on. Our teachers are great individuals who helped us to grow and made us capable to face the world. Teachers are our motivators, mentors, guides etc.

Growing up, I possessed some difficulties liked low self-esteem, low confidence, low social interaction. However participating in various activities in school gave me the opportunity to meet other students which helped me to overcome such difficulties through increased interaction with teachers and students. I gradually evolved from the introverted role and became more social, making new friends and having more confidence.

Furthermore, the activities that I have done in school have presented me with leadership experiences and competitions. I can't give my school and teachers enough credit for their helping hands to develop my personality. I would like to express my heartiest gratitude to all the teachers who helped me in this journey.

Today, I am here to share how thankful I am to have teachers who have built me into the person I am.

The first word that strikes my mind hearing the word teacher is my school. It would be an unimaginable scenario if there would be no teacher to guide me through the fourteen years of my schooling. It was a time when we either build ourselves or break ourselves. The rational thinking that develops, the values that are culminated into us, shows a lot about the teachers who educated us. Most of our personality traits and our way of judging other people are developed in these crucial years. I am and will always be grateful to my school and teachers, who had a significant influence in my life. I was never an excellent student, but my teachers were always there to support me, directing me to the right path and encouraging me to do better than before.

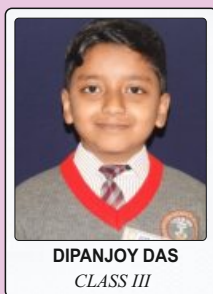

I would like to thank all my teachers who have molded me into the person I am today. I specially extend my heartfelt thanks to my Principal who has given me chance to step into this school. Thanks to my Headmistress and all those who falls in the family of Holy Cross School, Kumarghat. Long Live Holy Cross School, Kumarghat!

From a student of class VI (A), my school has assisted me in exploring a multitude of skills and activities. Accordingly, I am thankful to my school because it has helped me find what I am passionate about, pushed me to seek new experiences, and altered my personality. My school has made me aware of my love for Math, specifically calculus. I am never interested in this subject. As I grew and went to bigger classes I started loving math as my teachers play a great role in inspiring and making it learning creative and interesting. As a result, I started to get better grades. Securing better grades weren't easy but with the help of my committed and caring teachers I could walk many more steps further. I am very thankful to my school for helping me do that. Growing up, I possessed low, self esteem, low confidence and social awkwardness. However, participating in activities has given me the opportunity to meet other students with similar hobbies and interests. Through increased interaction, I gradually evolved from the new introverted role and become more social, making new friends, and having more confidence. I cannot give my school enough credit for this effect on my personality. Furthermore the activity that I have done in school has presented me with leadership experiences, competitions and relationships.

Thank You Holy Cross School, Kumarghat for making me who I am today and hope to be better in the coming days.

CLASS V

I N.D. Thaisa Debbarma, a student of class V, Holy Cross School, Kumarghat would like to appreciate the efforts taken by the teachers at the school. My school is one of the best educational institutions in Tripura. Even during the time of lockdown, they organized online classes. We all know it's not possible for children to attend classes at that time which could result in the loss of their studies. But I am happy with the steps taken by our school providing online classes so that even during those days we could still learn new things and cope up with the situation due to the immense hard work and help of the school. I am really happy to study in such an eco-friendly environment. Besides education, there are several other significant roles that our school plays in my life. My school is a place where not only do I get education but also get trained to be confident and participate in competitive skills like sports, music, and dance. I am proud of my school because it provides us with all the basic facilities like a big playground, auditorium, science Lab, and Computer Lab.

All of us are very proud to be part of this school. Thank you so much for everything. All the fun activities and interesting lesson plans have taught me so much all these years and always look forward to seeing better and better. I congratulate our Principal, Headmistress, teachers, benefactors who have done so much for this school to achieve its name and fame.

Education is an essential part of our lives. We are nothing without knowledge. It is lack of knowledge and education that separate us from others .The main step to acquire education is enrolling oneself in a school. My school is my second home where I spend most of my time . School gives me a platform to do better in life and also build my personality. At school, we share all of our pleasures and sorrows and we constantly rely on one another. Teachers play an integral part in the school . Teacher can make or break the school . But I am fortunate enough that I got the best teachers who not only help me in my academic field but they also give me moral lessons that helps me in my day to days life. Our school organizes sports classes once in a week to teach us about the importance and necessity of good physical health. Our school also arranges various cultural programs to build our self-confidence. In contrast to other schools, my school does not solely focus on academic performance. In other words, it focus on the overall development . To conclude, I am grateful to our school for offering us with all these amenities and help us to become a better person everyday.

To where I stand at this moment I can see vast ray of flower unique and enchanting lovely and pure beautiful and breathtaking seeing a flower bed of completers made me remember the times memories and hardships we have been through as we grace for the alleys of the Holy Cross School Kumarghat.

It was not so long ago when our journey began in the four walls of this institution we were like flowers that are young blossoms frail, innocent but pure and lovely .As we took the path of this journey we have reached the end point where we have grown remarkably with passion and determination. Despite our fairness, innocence purity and loveliness who have seen and experience the cruelty of this society, we have survive, grown and face those challenge that we have conquered, tested and shaken our individuality. We cannot help but to remember those challenges no matter what the circumstance were. With all those people who have been with us on this journey.

Newly bloomed flowers need sunlight on this day, let us give our sincere appreciation to our friends who served as our sunlight in our darkest days. They are our ball of sunshine and happiness amidst the grueling pressure and stress we have experienced each day. Their supports gives us an assurance that no matter what happens we have a special person or persons in our hearts that we can lean and express comfortably what we feel in times of need.

A side from sunlight flowers need a sprinkle of water in their life. Today is the perfect time to express our warmest gratitude, love and giant respect for our teachers and our parents. They serve as the water current who will guide us on our way in full feeling our dreams and aspirations in life. They do not guide us to an exact right path. However, they lead us to the road where we would understand our purpose in this world and how we can be a better version of ourselves. Thank you.

Pariksha Pe Charcha 2023

SIR. MANMATH DATTA

Our Prime Minister Mr. Narendra Modi on 27th January 2023 interacted with students, teachers and parents on the upcoming Eoard Exams 2023. 'Pariksha Pe Charcha' is an annual event in which the prime minister addresses questions related to time management, board exam stress and anxiety. The sixth edition of Pariksha Pe Charcha (PPC), conducted by the Ministry of Education, was held in a town hall format at the Talkatora Stadium in New Delhi. Students of classes 9 to 12, selected teachers and parents who registered for participation attended the event. This year, nearly 38 lakhs students have registered for Pariksha Pe Charcha.

The Pariksha Pe Charcha 2023 event was streamed live in schools across the country. For the said event our school Holy Cross School Pabiacherra, Kumarghat also witnessed the live streamed programme along with the students of classes VI to X and the teachers. It was a nice platform where our students could get awareness on how to overcome the exam stress and prepare themselves peacefully and calmly the upcoming exams. After witnessing the programme of Pariksha Pe Charcha, our students got encouragement and full of confidence to prepare for their Annual Exams. Thanks to Our Prime Minister for creating such a platform for the students, Parents and Teachers.

Pariksha Pe Charcha: PM's tips for Parents:

Apart from students, the prime minister advised the parents regarding exams and how they should deal with their children.

- Parents shouldn't set the expectations to maintain their social status in society.
- Parents should not feel inferiority complex if their children score less than expected marks.
- Don't restrict children or try to contain them
- Let the children find their own path
- Teach them that sky is the limit and let them fly
- Lookout for any changes in the child's behaviour.

It was really a wonderful programme for the students, parents and teachers. I thank our Principal for giving us the chance to view and witness the said event.

Birthday Celebration of

Fr. Lourdu CSC.

Ms. CHAWIMAWII DARLONG

‘Life is well lived’, is the inspiration to so many hopeless people who come in contact with such wonderful souls. I can define this statement in the personification of the life of Fr. Sahaya Lourdu Raj. A man known for his holiness and deep sense of spirituality which reflects in his simplicity and ever readiness of his prime call as a Priest.

I am so humbled to know him and work under his guidance. His simplicity is admired by students, guardians and teachers as well. His speeches, guidance, and his Homilies are life giving. A hope less man who had lost all his hope and wanted to commit suicide, after hearing him became a man with full of hope and completely new person. That is the power we see in his preaching.

Simple living and high thinking. He is a man of few words and more actions. His expertise in media and knowledge of computer is amazing.

On 14th February 2023, we the family of Holy Cross School, Kumarghat celebrated his birthday in a very simple way. The hall was decorated for the celebration. Fr. Lancy D’Souza, the secretary of the school, Sr. Bernadette, the headmistress, Sr. Lahun the supervisor, teachers and students of classes VIII to IX were present for the said celebration. We had few cultural programs. A birthday song was sung by all the teachers followed by the cutting of the birthday cake. At the end of the celebration snacks were served. It was a meaningful birthday gathering, the life of a godly man, a holiness of life. Fr. Lancy, the school manager, gave a meaningful speech and expressed the selfless service rendered by our Principal. After which Fr. Lourdu, our principal too gave a valuable speech and thanked all of us for celebrating his belated birthday.

May he have many more celebrations in years to come with God's blessings. And may he find joy in educating Heart and Mind to many wherever he is placed.
